REPORT GOLD SHIPMENTS TO USSR;  
PROTEST RUSSIAN-LANGUAGE INSTRUCTION

STUDENTS REVEAL EDUCATION CHANGES -- Chosun Ilbo, 29 Mar 50

The puppet government of North Korea has been shipping large amounts of gold to the USSR, according to two students of Hungnam Chemical School who came to the South recently because of their opposition to the Communist education of North Korea.

The student refugees reported that gold mined at Song-hung Gold Mine in Songch'on-kun, P'yongan Namdo, has been shipped to the USSR after being refined at the Hungnam Refinery.

The students also revealed that in all schools above secondary schools the physical education class has been replaced with intensive military training under military instructors assigned by the People's Army. English-language study is replaced by the Russian language. The daily intensive Communist indoctrination and the compulsory mobilization for construction work permit no time for the students to study academic subjects.

The third conscription of men from 18 to 32 years of age into the People's Army began early in 1950. Only mentally defective youths are exempted.

STUDENTS DENOUNCE ANTI-NATIONALIST POLICIES -- Chosun Ilbo, 23 Mar 50

On 10 January 1950, the students of Wonsan Normal School distributed pamphlets denouncing Kim Il-song's anti-Nationalistic policies. They demanded abolishment of the Russian-language instruction and education which censures the Taehan Republic.

The students set the school auditorium on fire. As a result, 70 students were rounded up by the police.
